RampUP! KY

Portable Ramp Loaner Program

RampUp! KY offers complimentary loans of portable aluminum ramps for up to 6 months.

WHAT KIND OF RAMPS ARE AVAILABLE?

Ramps are available in fixed lengths between 2′ - 12′ and may be suitcase style, tri-fold or non-folding.

WHERE DO I PICK UP THE RAMP?

Ramps are available at several locations across the state, and sizes vary according to the site.

WHO INSTALLS THE RAMP?

The consumer is responsible for arranging pickup and return, as well as set up and installation.

Ramp size can be determined by using the incline calculator.

1

Step 1

Measure the distance from the top step/landing to the ground (Rise).

2

Step 2

Select the incline you desire (Ratio). We start you off with the ADA standard ratio of 1:12 (every 1" of rise requires 12" of ramping), however, refer to your equipment's owner guide for acceptable ramp usage, including proper slope/incline, chair direction, etc.; never exceed its recommendations.

3

Step 3

Enter the values in the tool to determine the length of ramping needed.

Scan the QR code for the calculator!
